SKILLS

Technical Skills

- **Programming Languages**-Java , Javascript
- **Libraries** -React
- **Framework**-Express.js
- **Database** -SQL ,Mongodb
- Data Structures and Algorithms
- HTML ,CSS
- Git & GitHub Proficiency

Transferable Skills

- Problem Solving ,Communication
- Emotional Intelligence , Adaptability

EDUCATION

Btech (Computer Science)

Sagar Institute of Research and Technology
2020-2024 Current Cgpa-8.46

Senior Secondary

Holy Cross Co-ed School
2019-2020
Percentage-87.2

Secondary

Holy Cross Co-ed School
2017-2018
Percentage-84.4

INVOLVMENT

- 5 STAR IN JAVA / SQL AT HackerRank
- 400+ Question At LeetCode

SUMMARY

Skilled Computer Science graduate proficient in Java, JavaScript, React, Express.js, SQL, MongoDB, HTML, CSS, and Git & GitHub. Strong foundation in data structures, algorithms, and web development technologies. Passionate about problem-solving and continuous learning, seeking opportunities in application development and collaborative projects. Open to roles that align with my technical skills and contribute to operational excellence.

PROJECTS

Crop-Connect Project

It is a full stack web application that connects the buyers and sellers directly without a middleman.

It is Built using html , css , javascript , Node.js , Express.js and Mongodb

Blog-Writing App

Enables users to authenticate and perform CRUD operations (create, read, update, delete) on blog posts. Tech Stack: Built using React, React Router Dom, Redux, Appwrite, and @tinymce/tinymce-react for a seamless blogging experience.

WeatherApp

- Fetches real-time weather information for global cities, displaying temperature, daily highs/lows, and overall weather conditions.

Tech Stack: Built with HTML, CSS, and JavaScript, utilizing API for weather data retrieval.

INTERNSHIP

Web Developer Intern

worked as a web developer in Hiring Dreams .Designed and Developed Apps along with the seniors at the company.

EY GDS – AICTE Internship

During my internship, I led Power BI analysis for unicorn businesses, driving strategic decisions with insightful data-driven recommendations.

CERTIFICATE OF PARTICIPATION

APPNOVA-Hackathon

Participated in hackathon organized by Cognizance in IIT Roorkee. The problem statement was to design a UI/UX of an app based on space tourism.

Java developer/Frontend developer

certifications as a Java developer and frontend developer, showcasing my proficiency in both areas.
